

AVOID E-TRANSFER FRAUD

Protect yourself with these tips:

SIGN UP FOR AUTO DEPOSIT

Having funds automatically deposited into your account removes the risk of a criminal intercepting the deposit email.

USE HARD-TO-GUESS ANSWERS

Ensure your answers cannot be easily guessed or found on social media.

NEVER PUT ANSWER TO SECURITY QUESTION IN MESSAGE BOX

Only share the answer in a separate, secure way ~ such as in person or over the phone.

KEEP YOUR EMAIL SECURE

Be cautious of clicking links. Log out when you're away from your computer. Use strong passwords that cannot be guessed easily.

SIGN UP FOR ALERTS

Register for online banking email/text alerts, & notify us immediately if you see any suspicious transactions.

KEEP YOUR PASSWORDS & DEVICES SECURE

Don't share your password. Don't reuse passwords. Change your password often. Install anti-virus & spyware software on devices.

CHECK YOUR RECIPIENT LIST

Review to ensure no information has been altered or added.
